Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-14, drawn to collecting tax information to perform a check on a taxpayer (as described in the second embodiment disclosed in the specification on pages 16-18), classified in class 705, subclass 10.
 - II. Claims 15-34, drawn to distributing tax information to permit consumer product-related companies to target their goods and/or services to particular taxpayers (as described in the third embodiment disclosed in the specification on pages 18-21), classified in class 705, subclass 10.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as utilizing the tax data of a taxpayer to approve him/her for a loan without targeting the taxpayer with any promotional offers for other products. See MPEP § 806.05(d).
3. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Art Unit: 3623

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
